EDUCATION

Deen Dayal Upadhyaya (DDU) Gorakhpur University

B.Tech, Computer Science and Engineering

Gorakhpur, India

Aug 2024 – Jun 2028

Heera Lal Patel International School

Higher Secondary (XII), Science Stream (PCM)

India

2022 – 2024

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, HTML5, CSS3

Frameworks & Libraries: React.js, Node.js, Express.js, FastAPI

Databases & Platforms: MongoDB, PostgreSQL, Supabase, AWS (EC2, S3), Git, REST APIs, Postman, CI/CD Pipelines

Concepts: Data Structures & Algorithms, OOP, System Design, LLMs, Prompt Engineering, Machine Learning

EXPERIENCE

TechSphere – IET DDU (Official Technical Community)

Head of Event Management

Gorakhpur, India

Mar 2026 – Present

- Reduced event coordination overhead by 30% across 3 technical events by building structured execution pipelines covering outreach, logistics, and cross-team communication for a 50-member student community.
- Improved participant experience for 2 hackathons by designing registration workflows and post-event feedback systems, cutting last-minute issue resolution time significantly.
- Managed a cross-functional volunteer team of 10+ during live events, maintaining execution quality under time pressure and zero-tolerance for downtime.

InAmigos Foundation (IAF) – Govt. of India Registered NGO

Web Development Intern

Remote

May 2026 – Jun 2026

- Built and delivered a responsive landing page for the foundation's digital outreach using HTML, CSS, and JavaScript, improving the organization's public-facing web presence.
- Collaborated remotely with a cross-functional team adhering to organizational deadlines, demonstrating ownership and professional discipline in a structured non-profit environment.

GirlScript Summer of Code (GSSoC '26)

Open Source Contributor

Remote

May 2026 – Present

- Selected as contributor in GSSoC 2026 (Open Source + Agents tracks), one of India's largest open-source programs, contributing bug fixes and features via pull requests to production-level codebases.
- Strengthened collaborative engineering skills – Git branching, code review cycles, and issue tracking – by working across diverse tech stacks beyond personal projects.

PROJECTS

Asaaan | MERN, Socket.io, Razorpay, MongoDB

2025 – Present

- Building a QR-based table ordering SaaS platform for Indian restaurants, enabling real-time order tracking via Socket.io and integrated Razorpay payment gateway for end-to-end transaction flow.
- Designed the full database schema and REST API architecture for menu management, order state transitions, and multi-table session handling.

Prince Tailors – Business Website | Next.js, MongoDB Atlas, Three.js, Framer Motion

2024

- Built and deployed a full-stack business website for a family-owned tailoring shop with order tracking feature, admin dashboard, and 3D scroll-driven UI using Three.js and Framer Motion.

CERTIFICATIONS & ACHIEVEMENTS

Samsung Innovation Campus – Certification in AI/ML and Software Engineering Fundamentals

GSSoC '26 – Selected contributor, Open Source + Agents tracks

Rift Hackathon – Built functional prototype under time constraints; certified upon completion

HackWithIndia – DDU Edition – Developed working tech solution at national-level hackathon hosted at DDU
